

SCENE SLAIN IN BOMBOS AREAS AS FIRES GLOW

Many Injured and Wounded When Mobs
Storm Mounted Police Headquarters,
Santa Fe

BUENOS AIRES, Dec. 29.—Twenty persons were reported slain and many wounded at Rosario, Northern Argentina, early today in what police described as an attempted radical revolt. Many were injured and wounded at Santa Fe when police fired into crowds which stormed Mounted Police headquarters. Fifty persons, all armed and wearing red and white arm bands, were arrested in Buenos Aires.

The capital was thrown into a state of high excitement, but most of the trouble, which, according to the Mounted Police, had been broken here with a probability that all Argentina would soon be restored to order.

Shortly after midnight, rebels stormed upon the arsenal at Rosario. Heavy firing ensued and the civilians were repelled. After a battle in which the chief of mounted police was wounded, many were wounded at Santa Fe when crowds stormed around mounted police headquarters.

BRITISH TRADE REVIVAL GAINS FAST IMPETUS

Board of Trade Returns
Show Increase Sales
of Foods

By GEORGE HAMILTON
LONDON, Dec. 29.—The board of trade returns today showed an increase in the sale of foods and possibilities for the first time in three years and concurrently from many other sources came indications of how Britain's trade revival is moving to still higher levels.

Winter sales business now in full swing promises to break all records. Fruit salesmen report Christmas the busiest week of the year with tonnage produced in the largest percentage ever known.

STUDENTS SEE PRESSING NEED OF ECONOMIES

Five Cent Reduction in Fees Prevents Schism in Conclave Ranks

Persistent, Effective Measures to Guide Would-be Students Into Practical Callings Provided.

BERLIN, Dec. 29.—Recent college graduates are having a hard time finding professional positions, the number of students admitted to German universities next fall will be sharply limited, with one woman scholar for every ten men.

Students are being urged to take practical courses, and to take advantage of the many opportunities for pre-war service; the number of women scholars alone has increased eight or ninefold.

Last year 24,000 persons started their college work of whom 4,000 or about 17 per cent, were women.

STATES NAVY PROGRAM IS WORRY SOURCE

British Authorities Reiterate Need of Maintaining Enlarged Plans

LONDON, Dec. 29.—Word from Washington yesterday that the U. S. navy is seeking to acquire 100,000 tons of steel for the construction of 100 new battleships, and that the navy is also planning to build 100 new aircraft carriers, has caused much concern in British naval circles.

Britain's lead in naval disarmament has not only been followed by other powers, it is pointed out, but has also been followed by the United States, which has been increasing its naval armaments at an increasing rate.

Impelled by the program in other countries the British government recently announced provision for three cruisers of somewhat larger dimensions than the last ones, and contemplated for the 1933 program, but which is now being postponed.

Under required strength. That year the London Naval Treaty expired, and under British agreement to accept a maximum of 30 cruisers, a figure in itself assured of being considerably below the 70 or so cruisers required by the navy on a permanent basis.

This year only two new cruisers came into service, and the United States navy in 1933, three in 1935 and six in 1936. The latter are vessels of the 1922 and 1923 classes.

U. S. SUPERIORITY. The figures also include all cruisers and smaller vessels. The United States navy, even under the normal program, is superior to the British navy in 1936, these mounting 30 cruisers. The British navy has more than 100, but these include the two cruisers in the Australian navy.

Apple Preference May Be Removed. KENTVILLE, N. S., Dec. 29.—"There is grave danger the British preference given Canadian apples through agreements made at Ottawa conference may be abolished."

Red Deer Scots Repair 1,400 Toys. RED DEER, Dec. 29.—Now that the Christmas rush is over toy makers have had time to work on a few of the toys which were completed this season. The 1933 toy campaign was conducted by the Red Deer Scots who have repaired 1,400 toys in the last year.

Four hundred and fifty-seven children received toys at Christmas through the efforts of the shop and the Red Deer Scots. The toys were in the form of 100,000 year 48 families representing 361 children were served. Around 1,400 toys in all were sent. Thirty-seven of the families were in the town or nearby; twenty-four were in the district and the remainder 40 were in neighboring towns, mainly west of Red Deer.

A. Wood was chairman of the Red Deer Scots and the shop. The shop is carrying on its fine work of repairing toys. The shop is a voluntary organization, while others have helped. The shop is a voluntary organization, while others have helped.

Will Tour Canada In Pantomime

CONSTANTE LAXTON, niece of Sir John MacLachlan, who is well known to Canadian theatre-goers across the continent, will play the "Principal Boy" in "Robin Hood" at M. Collins' pantomime to make a trans-Canada tour in some time.

Sir John has toured Canada on many occasions, this is his niece's first visit to the continent.

PRE-EMPTORS FROM ALBERTA GET AID IN B.C.

Problems of Administering Relief Give Province Concern

VICTORIA, Dec. 29.—Since pre-emption privileges in the Alberta section of the Peace River country, hundreds of families have crossed the boundary to the British Columbia section and a large proportion of the province, it was indicated here following a conference today of Hon. George S. Pearson, minister of labor, and Clive Plunket, member of the House of Commons.

Number of these families left Alberta settlements, and under British agreement to accept a maximum of 30 cruisers, a figure in itself assured of being considerably below the 70 or so cruisers required by the navy on a permanent basis.

This year only two new cruisers came into service, and the United States navy in 1933, three in 1935 and six in 1936. The latter are vessels of the 1922 and 1923 classes.

U. S. SUPERIORITY. The figures also include all cruisers and smaller vessels. The United States navy, even under the normal program, is superior to the British navy in 1936, these mounting 30 cruisers. The British navy has more than 100, but these include the two cruisers in the Australian navy.

STUDENTS SEE PRESSING NEED OF ECONOMIES

Five Cent Reduction in Fees Prevents Schism in Conclave Ranks

LONDON, Dec. 29.—Faced with a break in their ranks when delegates from McGill and Saskatchewan universities threatened to follow the lead of the University of Western Ontario and withdraw their affiliation, the National Federation of Canadian University students at the closing session of the annual conference yesterday surrounded the disaffected members to recall their notice of withdrawal, by reducing the student movement from 10 cents per student to five cents.

This action was taken when G. Halsey of McGill and Des Marais of Saskatchewan were informed the session they had been ordered to drop affiliation with the federation. The student organizations of their respective universities were not derived from their affiliation and also the ideal of the national organization were "too ethereal."

Other delegates denied this contending the federation was doing a great deal of good. However, a majority felt a cut in fees would be quite in order in view of economic conditions. The McGill and Saskatchewan representatives withdrew their notice of withdrawal with the provision that their student governments be given an opportunity to pass on the reduction in fees.

M. Kenney of Toronto was re-elected president for the coming term. P. G. Davies, M.P. Alberta, was elected vice-president. M. Collins of the University of British Columbia, first vice-president; and Rayland, Lanthorn of Montreal, second vice-president. The latter officers were also in the executive committee.

Due to economic conditions, it was decided to pass up a 1934 conference. The next national conference will be held in 1935. All but two or three of the 30 delegates left for their home last night.

7,000 TONS WATER TO EACH BUSHEL IS WHEAT DEMAND

TORONTO, Dec. 29.—Upwards of 7,000 tons of water are needed in the production of a single bushel of wheat. The figure is based on a comparison made by "Country's" editor, Mr. Patterson, the director of the Dominion meteorological service.

Mr. Patterson has a flair for making the influence of weather on various phases of Canada's national life when he is not busy trying to find out when cold spells like the present are likely to end.

So he has found another water measure in the world. Every year the wheat in the world requires 7,000,000,000 tons of water from the north and the other from the south, each have hundreds of miles to cover.

Because of the isolated position of many of the families it is difficult to secure information concerning them and while the department is anxious to give immediate relief where the need is urgent, according to Mr. Patterson, it is impossible to adopt a policy of granting relief applications without inquiries being made.

Quebec Camps Being Probed

MONTREAL, Dec. 29.—The 1,200 lumberjacks in the province of Quebec are being subjected to a searching investigation by eight independent forestry experts. The investigation is being conducted by the minister of lands and forests since there has been a large number of complaints of illegal logging.

The Quebec government, he said, was amassing evidence as to wages paid lumberjacks, hygiene in the camps, sales charged by company stores for clothing and other necessities, as well as general camp conditions.

Such Is Life—By Walt Munson

Such is life—By Walt Munson. The story is a collection of short stories, each dealing with a different aspect of life. The stories are written in a simple, straightforward style, and are easy to read. The stories are set in various parts of the world, and each one has its own unique characters and plot. The stories are a good read for anyone who enjoys a good story.

Probe This Affair

DAVID MCGILLICHRIN and **HON. WM. FINLAYSON** are the subjects of a probe into the affairs of the National Federation of Canadian University students. The probe is being conducted by the government, and is aimed at determining whether the federation is acting in the best interests of the students.

TWO WESTERN PORTS LED IN WHEAT EXPORT

OTTAWA, Dec. 29.—Export clearance of wheat for the week ending December 22 amounted to 2,347,673 bushels, an increase over the 1,882,000 bushels exported during the preceding week, but a drop from the corresponding week a year ago when the exports totaled 4,732,023 bushels. The report issued yesterday by the Dominion Bureau of Statistics shows Vancouver-New Westminster leading the exporting ports with a shipment of 1,003,433 bushels.

This figure, however, was lower than for the same week a year ago when the exports totaled 4,732,023 bushels. The report issued yesterday by the Dominion Bureau of Statistics shows Vancouver-New Westminster leading the exporting ports with a shipment of 1,003,433 bushels.

Shipped through United States ports last week were more than double those of the corresponding week of 1932. Montreal shipped 3,809,913 bushels.

STOCKS STOCKS RECEDE. The market was down on December 22, totaling 23,739.06 bushels compared with 24,310.06 bushels on the same date of 1932. The stock was gradually receding to last year's figure and yesterday being a little over 6,000,000 bushels.

Canada, which in 1932 shipped 14,430,814 bushels of which 5,443,729 bushels were in Buffalo and 3,810,000 in New York.

This compares with 14,483,323 bushels on the same date of 1932. When 7,512,000 bushels were located at Buffalo and 3,780,000 at New York.

UNITED STATES WHEAT IN CANADA was 4,006,010 bushels compared with 4,006,010 bushels in 1932.

PEASIE MARKETING. Wheat marketing in the prairie provinces for the week ending December 15 amounted to 3,005,303 bushels, an increase over the 2,700,000 bushels marketed during the previous week and 3,448,000 bushels during the week of December 15, 1932.

Markings for the 20 weeks ending December 15, 1933, totaled 7,287,787 bushels compared with 7,287,787 bushels in 1932. The province of Saskatchewan marketed 7,287,787 bushels.

Exports for the twenty-one weeks ending December 15, 1933, totaled 14,483,323 bushels compared with 14,483,323 bushels in 1932.

UNITED STATES WHEAT IN CANADA was 4,006,010 bushels compared with 4,006,010 bushels in 1932.

FIFTEEN DAY TRUCE EXTENSION DENIED BY PARAGUAYANS

ATTEMPTED, Dec. 29.—Paraguayans formerly refused last night to extend the truce with Bolivia in the Chaco Boreal war. The extension of the truce was denied by the Paraguayan government, and the war is expected to continue.

Established through intervention by the League of Nations and the Pan-American conference, the armistice ends at midnight Saturday. Bolivia already had acceded to extension of the armistice to January 4, urged under the auspices of the League of Nations.

Paraguay's failure to approve the extension was attributed to the opposition of 1932, standing at 15,000 men, and 15,000 men.

Paraguay's failure to approve the extension was attributed to the opposition of 1932, standing at 15,000 men, and 15,000 men.

...of difference there was between them. And Denise remembered clearly that bartender remembered the story that Denise had told him about the murder the evening of King's death. He thought of the hundreds of women who had filed into the bar each week to hear Tracy and the other boys tell their tales of the city and the girls. The letters sent him girls and wept at the mere memory of the letters said "I suppose I should have been a woman." He looked at the girl. "You've been thinking about it, haven't you?"

"What's your theory; about guilt?"

"I've never come close slowly. If I were going to find out who killed Tracy, I'd look for that gun."

The police haven't been looking for it."

"They haven't looked in the right place. I'd hunt for it in a apartment where he was killed."

The bartender raised his hands and said, "They that," he assured her, as soon they found out about the murder, who isn't arrested was arrested quickly."

"I'd look there anyhow," the girl said.

"The murderer would want to get rid of the gun."

Codfish Lends itself To Varied Treatment

By SISTER MARY

There are many excellent brands of salt codfish on the market and after economical study we mean to vary the winter menu.

A supper of codfish soup, roasted bread slices, codfish soufflé, brown bread and butter, and Cumberland pudding with liquid sugar, is a nourishing, well balanced, inviting and economical meal.

Creamed codfish is another Sister Mary dish. Add fish, butter, milk and pepper to hot mashed potatoes and beat well. Add codfish and cook for five minutes. Then add cream and cook for five minutes. Sprinkle with paprika.

Hearty breakfasts are not wanted, codfish can be served at luncheon or dinner, and even vegetable or a cream soup should be included in the menu to bring the proper amount of milk in the diet.

Following are simple recipes for codfish lads and codfish soufflé.

CODFISH BALLS
Two eggs sliced raw potatoes, one cup shredded codfish, one tablespoon butter, one egg, one-quarter teaspoon paprika.
Fry fish in lukewarm water for two hours, changing water three times.

Face Cream Was Invented By Franklin

Ben's Crude Cosmetic Satisfied Demands of Revolution

By GLADYS GLAD

America's Most Famous Beauty BENJAMIN FRANKLIN, famous American patriot and statesman, is renowned in the inventive field chiefly for his experiments with lightning and electricity. But he also invented a facial cream that was probably a crude product of a chemist when compared with the preparation of today.

Today, of course, there are a profusion of creams and lotions, the glorification of American womanhood. The majority of them are good, reliable products, and most beneficial when properly used. Yet there are a good many day women who, despite their need for them, refuse to use creams because of that granddaddy old story—the belief that creams grow hair on the face.

I don't think that anyone who reads more frequently than we stage people the "grace points" and other make-up that we must use to cover our faces, and I've never yet seen any woman or screen star who could qualify as a prospective "bearded lady."

Practically all women have a slight down on their faces. Scientists say that such hair growth is controlled mostly by the action of internal glands. Also they claim that the growth of such hair is due to the growth of hair in order to protect the tender facial skin from the cold of the elements. I have never heard any authority claim that as one of the most superficial hairs of a good complexion or cleansing cream, will actually cause the growth of hair on the face.

EDITH'S NOTE: While it is impossible for Ben to have been happy to use his hair cream, it is possible that he was. He was a man of many talents, and he was a man of many talents. He was a man of many talents, and he was a man of many talents.

Ben's hair cream was a product of a chemist when compared with the preparation of today. It was a product of a chemist when compared with the preparation of today. It was a product of a chemist when compared with the preparation of today.

Works for Peace Civilized, Natural Laws Conflict Here

By SISTER MARY

Dear Miss Deed: As far as nature is concerned, the normal mating time for girls and boys is about 18 and 20. The law says "certainly, but you must get married first." But very few young people at 18 and 20 are financially fitted for founding a home and starting a family. Excessive early marriage and marriage contracted at such an early age rarely turn out successfully. There is something radically wrong when the laws of nature and the laws of civilization are in conflict. How can this wrong be rectified, or how can it be avoided?

Answer: Nobody in the world is wise enough to answer that question. Nobody has ever been able to find a plan which nature and civilization can be harmoniously reconciled.

We can change the course of rivers, we can't keep boys and girls from falling in love, nor can we avoid the disasters that so often occur when they do.

As you say, nature intended human beings to mate when they are young, and the law says that they must get married first. It is a little gap and a law to live on as the animals do. But the civilized man has made his purpose by giving to the law a little gap and a law to live on as the animals do.

Independent of the law and civilization, the young boy and girl are deterred from mating because they cannot provide for themselves, much less for the children they would bring into the world. They must have food and shelter and clothes which are the bare necessities of life. In this day they must have more. They must have luxuries, amusements, parties, cars, and in their teens they have not acquired the skill at any trade or profession which would enable them to support themselves.

So when the boy and girl marry they become a law to the parents, who very often cannot afford to even another child. They are burdened by the law, and they are burdened by the law, and they are burdened by the law.

But even if the financial end of the early marriage could be solved, and parents were able to support the children, the children themselves would not want to be burdened by the law, and they are burdened by the law, and they are burdened by the law.

For white boys and girls of 18 and 20 say that they have found their way out of the problem. It is rarely the case.

Free love trial marriages have all been tried and neither have solved the problem. They have failed because human beings have souls as well as bodies, and they demand something of more than the gratification of an animal instinct. They want a love that endures because it is based on companionship and friendship.

When handling fish
Fish have a way of slipping through one's fingers when one is handling them. You can prevent this annoyance very readily. Just dip your fingers into salt before you handle the fish. This will keep the fish from slipping.

Milady Beautiful
By LOIS LEEVES

When any one decides to reduce weight by dieting, the first thing that is thrown overboard usually are bread, potatoes and sweets. It is in excess of the body's needs that these foods are eaten. The food group that they represent, namely, the carbohydrates, has a sweet place in every well-balanced diet. It is not harmful to omit all starch and sugar from the diet at the beginning of a reducing campaign. But when the diet is reduced, the body's need for these foods is not reduced. The body's need for these foods is not reduced.

Paris Answers Berlin's Demands With "No"

WILL TAKE SHARP NEGATIVE BACK TO HITLER

MORE ABOUT CONRADSONS
CONTINUED FROM PAGE NINE

dragged his limp body back on to the floor and poured oil over it before setting the cabin afire with a cigarette lighter.

Under cross-examination, the detective flatly denied that he had "abused" the confined out of the old man.

James J. Frawley, called for the crown, while Fred Jackson defended both accused.

Mr. Jackson commenced cross-examination of Inspector H. J. Tucker, R.C.M.P., with regard to the confession made by Conradson, that his son, Ed, had fired the fatal shot.

The inspector was taken closely over the ground covered in direct examination, but his story was not altered in a single detail.

Q—Detective Sergt. Symons was present on each occasion that the statements were given? A—Yes.

Q—What part did he take in the interview? A—None at all.

Magistrate: The stenographer was there, too.

He was not on the 25th; only on the 26th.

Inspector Tucker said Ed Conradson "cried quite a lot, but I never saw him speak very clearly."

I did not prompt him. I only said I wanted only a voluntary statement, explained the inspector.

CONFINED TESTIMONY
Mr. Jackson—And did you try to stop him when he was talking?

Inspector: (sharply) No, no. Detective Sergt. F. W. Symons was then called and in direct examination by Mr. Frawley, made statements made by accused to Inspector Tucker in his presence.

The detective said he had gone to see Ed Conradson at his own request.

"He said he felt terrible."

"He asked me if I had caught his son."

"I said yes, I had."

Inspector Symons again asked again on November 28, "I told him I went back to Breton and asked him if he was anything, I asked him if he was anything."

LETTER TO WIFE
"He said he would write a letter to his wife. I said I would write for it. After half an hour he wrote back and he gave me a letter."

Mr. Frawley, producing letter.

France British Arms Proposals of Last Sept. Will be Again Presented.

PARIS, Dec. 29.—Ambassador Andre Francois-Poncet, French representative to the League of Nations, reported on the meeting with Foreign Minister Joseph Paul-Boncour and was told that France will give a flat "no" as a reply to the German Chancellor's armament demands.

Besides offering to destroy half her bomb stockpile if other nations will do the same, French leaders intend to propose the internationalization of all aviation at the Geneva disarmament conference, it was learned.

The suggestion regarding the bombing would involve the elimination of a proposed four or five years armistice period to which the French have already agreed.

Mr. Francois-Poncet will return to Paris in Berlin before the New Year. It was considered likely that he will be able to deliver the French answer to the German proposal prior to January 4.

He will take the Franco-British proposals emanated in London. These have the following provisions:

First, a ten-year period of four years' armistice, during which the French have already agreed to supply arms to the League of Nations.

Second, Germany will get an army of 200,000 men with light defense equipment, such as machine guns and 105 mm. cannon.

Third, Germany will have 50,000 men troops and the same number of light defense equipment, with all existing armaments.

Fourth, reciprocal control of arms will be established.

Fifth, during a second four-year period, Germany will be allowed to have defensive material for the League of Nations.

Sixth, other powers will supply defensive arms such as cannon over 105 mm. and tanks of more than 100 tons.

Then set fire to with a cigarette lighter.

Old Conradson again gave the detective a list of his neighbors who were anything, I asked him if he was anything, I asked him if he was anything.

Detective Sergt. Symons, called to the stand, said he had seen the letter which he had given to the detective.

Under cross-examination, the detective said the old man cried frequently and he had to be kept from his troubles with his wife and Anderson.

Q—Did you tell him that he could never be hanged? A—No, I never did.

Q—Didn't tell him that he would never be hanged? A—No, I never did.

Q—Didn't tell him that he would never be hanged? A—No, I never did.

Q—Didn't tell him that he would never be hanged? A—No, I never did.

Q—Didn't tell him that he would never be hanged? A—No, I never did.

Q—Didn't tell him that he would never be hanged? A—No, I never did.

HOLLYWOOD Gossip

INTIMATE GLIMPSES AND INSIDE STUFF ON THE MOVIE COLONY

By Dan Thomas

HOLLYWOOD, Dec. 29.—When Dan Thomas returned from a year's round-the-world journey trip with his husband, Leslie, he found that the movie colony was still the same.

By these words Mrs. Thomas reveals a career that might have led her to stardom, for a happy married life.

"My marriage is the most important thing in my life. After that comes my career. No matter how brilliant a career might be offered, I wouldn't strive for it. I thought there was even the slightest chance of its breaking up my home."

"I may get another chance to become a star, and if I do I'll try hard to make good, because I don't believe anything could be better than Leslie and myself."

"However, I rather like to wait indefinitely for a starring opportunity, happy with my husband, than to be a star now, at the possible cost of a matrimonial split."

FRANK DANIEL'S DREAMS
Whenever Babe Danuels gets ready to retire from the screen, she has a dream.

She would like to be a writer, and she would like to be a producer of motion pictures.

A happy marriage should come ahead of any career, says Danuels, who is now in the city of Los Angeles, California, where she is working on a picture.

BRUINS CLIMB TO TRUMPH OVER LES CANADIENS

Fails a Ranger attack and New York-Bruins game ends in a draw.

PAID BY BILL LEWIS

In just two more days, an old year rolls around the bend and another 12 months of sport is written down in the history books. Somehow, this past year did not seem to produce as many outstanding facts by Canadian athletes as usual. Or maybe that's just my idea. I note in the newspapers yesterday that the sportswriting lads select Dave Kosman, a quarterback, as the stand-out Dominion athlete of 1933. To which I heartily disagree. My vote went to James Archibald MacLennan, otherwise Jimmy, who in the particular pride and joy of Vancouver. He was second when they finished counting the ballots.

Kosman, as you perhaps know, was a couple of marathons. Jimmy won for Canada the world's waterweight boxing championship. Figure that was out. But Kosman lives in Vancouver and there are more sports writers down that way likewise more votes.

Edmontonians, it appears, will not go ashore of hockey activity over the coming weekend, with a pro game Saturday night, a junior league game Sunday, a senior league game Monday and an inter-provincial exhibition junior game Monday. That's a pretty fair sort of program for one week-end.

One of the highly-rated claims of the West, Saskatoon Westies, should provide a real test for Edmonton Athletic Club, which looks like one of the starriest junior teams turned out here in many years. For that reason, the junior leagues appear to have made a good move in signing Westies to come here for an exhibition game. If coach Dan Carlson's E.A.C. allegation is Continued on Page 15.

Keatsmen Hopeful Of Gaining Ground In Game Saturday

Out to Beat Buckeracos in Northwest League Contest—New Player Expected in Line-up.

With a new forward practically assured for the club, Duke Keats' Eskimos will enter their Northwest Hockey League engagement with Portland Buckeracos on Saturday night hopeful of victory. The game will be played at the Arena, starting at 8:00 o'clock sharp.

Although he mentioned no name last night, Manager Keats declared that he expected a new man would be ready to accept a place on the team when they meet tonight and that his players were determined to mark up their second straight triumph at the expense of the Portland aggregation.

WIN HOLIDAY GAME. Eskimos smashed out a 1-0 win over the Bucs here Christmas Day on a beautiful Keats-Gago-Townsend effort and another win would move them ahead of Seattle Sea Hawks in the league standings. That what they are anxious to do and winding up their training with another victory today, they will be all ready for the invasion of the coast town.

It will be no easy matter winning from Portland, however, as the club has been knocked over the league-leading Calgary Tigers in the south-western division. The team will be in the first of confidence when they come back here. They showed a fast-skating young team and one that is always in the game.

Portland makes its second appearance in Calgary this evening.

ENGLISH TEAMS ARE HANDICAPPED

LONDON, Dec. 29.—A lot of the English football league clubs will go into their engagements Saturday severely handicapped by injuries received in the Christmas holiday schedule. Clapton Orient, one of the hardest hit, will be reduced to select a team Thursday for its match at Nottm Forest City in the third division, seven players being unfit, including Mills, their Welsh international forward.

Continued on Page 15.

The final period produced a six-point battle of hockey as the boys reared up and down the ice in their attempts to penetrate the rigidity at the end of the goal. Penalties were thick in this period. Ed Williams, back of goal, of the Imperials, was given a five-minute penalty for getting rough with a forward.

A smart solo effort on the part of McKee early in the final period sent the Imperials two up which they managed to keep until Williams, who drove the net into the net from a scramble at the goal mouth, while Williams was in the cooler. The Kaps made a desperate attempt to tie the game, but they were turned back time and time again by Williams who made many time saves. McKee, Ferrier, LaChance and Lemieux, winner. Davies and Mays were always present for the Kaps.

PLAY FAST GAME. Racing up and down the ice for 15 minutes, the Maple Leafs and the E. A. C. pucksharers battled to a scoreless draw in a struggle played at the 114 street rink which was featured by a rough and brutal brand of hockey and no less than 17 young men spent some 20 minutes in the cooler on penalties noted out by Referee Johnny McClelland for being content to disfigure the rules.

There was little to choose between the two squads, who fought an even game until the Imperials' defense brand of hockey and the remarkable net-minding of left-handed custodian was the highlight of the game. From the face-off the Maple Leafs took command of the play and fired a long barrage of shots at Harris, but the young net-minder checked them all in fine style. One was called upon to make some time saves.

The second session saw both squads set a fast pace and it was not until the third period that the Imperials came. For a majority of the time the Imperials were the more hard-bitten due to having men in the penalty box. Again it was the aggressiveness of the goalies that kept the forwards from setting in their time and time made only one of their efforts blocked. Several line slams were witnessed by both squads in the final period as the boys put on the gas in their attempts to score, but the goalies were unshakable and they were content to go home with a tie.

All at EATON prices. Sir — It Pays . . .

Boston Ties Wings For Second Place With 4-3 Victory

New York Rangers Draw With Toronto Leafs—Senators Tie Hawks—Beattie Has Assist

MONTREAL, Dec. 29.—Moving out of a tie with less than a minute of the game to play, Boston Bruins defeated Montreal Canadiens 4-3 before a crowd of about 5,000 fans here Thursday night to draw even with Detroit Red Wings in second position of the American section standing of the National Hockey League.

Bruins took a one-goal lead in the first period when Stan Stanfield scored after taking "Red" Beattie's pass at the Montreal Blue line.

Beattie, recently sent to Boston from New York Rangers, put Bruins two ahead four minutes after the start of the second period, when he scored from the right side of the net.

With but 30 seconds of regulation time left to play, Nels Stewart scored a hat-trick on a hard shot from the left.

Auril Joliat was the star of the game, giving a tricky display of stick-handling on the attack and checking back well.

On a scoring spurge in the second, following three goals to draw ahead of Boston, Pete Lepine, lanky center, grabbed Sylvio Mantha's pass and gave Thompson no chance to save.

Four minutes later Howie Morenz beat Thompson when he took Joliat's rebound of the back check squarely in front of the nets. Two minutes later, S. J. L. Mantha scored after a sustained scrum at the goal by Canadians, putting Canadians ahead.

Beattie, who had been in the penalty box, came back to the game and scored on a pass from Stanfield.

With the possible exception of their earlier battle here, it was about the fastest and best played game seen in Madison Square Garden since the season's Stanley Cup finals, battled to their second tie of the National Hockey League season Thursday night, finishing with two goals apiece after 70 minutes of fast hockey before a crowd of nearly 10,000.

The draw returned the Rangers to last place in the league's American division as the Boston Bruins, who had forged ahead, moved into second place.

QUAKERS DRAW AT SAINT JOHN IN ROUGH GAME

Come From Behind to Tie Beavers Thursday by 4-4 Count

SAINT JOHN, N.B., Dec. 29.—Playing their last exhibition before embarking from here today for a tour of Europe, Saskatoon Quakers tied Saint John Beavers to a 4-4 tie last night in a rough, fast contest.

Quakers, shut out by Moncton Hawks in the Allan cup finals last year, have been defeated only once in their journey to the Eastern seaboard, and that was at Moncton, Wednesday night, when the Hawks applied the whitewash.

Unassisted goals in the last period by Dewey and Schafie, with only six seconds intervening, gave the Beavers had been leading 4-2.

With the possible exception of their earlier battle here, it was about the fastest and best played game seen in Madison Square Garden since the season's Stanley Cup finals, battled to their second tie of the National Hockey League season Thursday night, finishing with two goals apiece after 70 minutes of fast hockey before a crowd of nearly 10,000.

FOR SASKATCHEWAN WESLEYS HERE MONDAY

Edmonton Athletic Club's Starry Band To Oppose Visitors

Strong Saskatchewan Ice Squad Coming to City For Exhibition Battle at the Arena.

Edmonton Athletic Club, a colorful junior hockey aggregation, undefeated in their four starts so far this season, will look back to the powerful Saskatoon Wesleys in a New Year's Day tilt at the Arena Monday afternoon. The game will commence at 8:00 o'clock.

Arrangements for the visit of the Saskatchewan team were completed yesterday by Colin Macfarlane and Joe Baker, officials of the club, and those in charge of the Saskatoon team.

PROVE POPULAR
Previous inter-provincial games have always proved popular with the local hockey fan, and this game, like all others here, has every indication of being a smart event.

Both teams are just about the pick of their respective provinces, which further confirms the already bright prospects for a hard-fought game.

An impressive record has been made by the visiting club, with Edmonton A.C. defeated both by the Saskatoon Wesleys and the Saskatoon Juniors.

BUILT FORWARD
Wesleys have built their team around a smart first string front line. The hard-working trio of Farmer, Hulme and Hill packs a lot of scoring punch.

On the other hand, potent power is packed by Dan Carrigan's youthful backcheckers and it is expected they will unleash it against the Saskatchewan invaders with its full force.

COLVILLE LEADS
Neil Colville, rugged play making forward leads the Edmonton Athletic club. Hill has scored no less than eight goals in his four appearances.

There can be no question as to the power on the defense line. Galt and Hech, substituted by Koehn, carry plenty of weight and can hand out robust body checking.

Plenty of fastbreaking is scheduled in the East tonight, what with that big king of the Fish-men, Lemmy, meeting the British chieftain, Don MacKinnon, while Jay Impellittere, new giant of Estabrook, faces the newest German sensation, Walter Naezel.

"The Prosperity of each will add to the Prosperity of all"

By insisting upon Empire-made goods you help to build a closer desirability of which Mr. Baldwin speaks.

In choosing **EMU Australian Port** in preference to foreign wines you show practical patriotism. You support the Empire industry and at the same time get a port which cannot be equalled in quality by foreign wines.

CANUCKS PLAY SUPERIOR CLUB HOLIDAY GAME

Senior Hockey Leadership Will be at Stake in Contest

Leadership of the Senior Amateur Hockey League will be at stake when the Canucks play the Superior Club in a New Year's Day game at Varsity rink Monday afternoon.

This is the game originally scheduled for last night but was moved on to the holiday in order to provide a similar fixture that day.

Superiors are at present tied for first place in the league with a record of 10 wins and 10 losses. The Canucks are second with 9 wins and 11 losses.

SCOTTISH HAVE HARD SCHEDULE
GLASGOW, Scotland, Dec. 28.—Teams of the first division of the Scottish football league Saturday swung into a stiff three-game New Year's holiday schedule, while the second division clubs are engaged Saturday and Sunday.

PATS AND PANS
CONTINUED FROM PAGE 14

going places in outside competition (provided they win their own league) they need the toughest opposition available and clubs like the Wesleys can provide it.

Sharing the New Year's holiday card with the junior tilt, the senior league game finds those perennial rivals, Superiors and Canucks, in the latter club's new year's game.

That should be the last of the year's hockey for the Canucks, who should be looking for their incentive for a battle.
